

- + Removable cover
- + Wide choice of colors
- + Electrical mixed kit available on request
- + Central connections with 50 mm on request

- Entièrement fabriqué en acier
- Collecteurs latéraux en forme de 40 x 30 mm
- Distance est de 86 mm entre le mur et le radiateur
- Housse amovible sans raccordement hydraulique
- Raccords 1/2"
- Deux couches: anaphorèse et revêtement en poudre époxy-polyester
- Kit de fixation inclus
- Fixation réglable au mur

- Made entirely in steel
- 40 x 30 mm shaped side manifolds
- Distance is 86 mm between the wall and the radiator
- Removable "Cover" without hydraulic connection
- Connections of 1/2"
- Two coats of paint anaphoresis and epoxy-polyester powder
- Fixing kit included
- Fixing adjustable from the wall

Technical drawing of a rectangular structure, likely a wall or foundation, showing dimensions and internal layout. The structure is composed of brickwork (indicated by a brick pattern) and a central area with a grid of small squares.

Dimensions and labels:

- Top horizontal dimension: MIN 150
- Left vertical dimension: MIN 150
- Internal horizontal dimensions (from left edge to grid start and end): $98+X$
- Internal vertical dimension (from top edge to grid start): $98+X$
- Internal vertical dimension (from grid start to bottom edge): H
- Internal horizontal dimension (from grid start to end): L
- Right vertical dimension (from top edge to a horizontal line): 86
- Right vertical dimension (from the horizontal line to the bottom edge): $127+X$
- Bottom horizontal dimension (from left edge to the right edge of the grid area): $362+X$
- Bottom right corner label: MIN 150
